Stripe API and Stripe.net Versions

The screenshot shows the Stripe dashboard navigation bar with icons for General, Team, API Keys, Subscriptions, Transfers, Webhooks, Connect, Data, and Emails. Below the navigation bar, the 'API version' is displayed as '2015-02-18'. This text is enclosed in an orange rectangular box. To the right of the version, there are buttons for 'Upgrade available...' and 'View changes'.

General Team **API Keys** Subscriptions Transfers Webhooks Connect Data Emails

API version: 2015-02-18 Upgrade available... View changes ▶

The screenshot shows the GitHub repository page for 'jaymedavis / stripe.net'. The file path is 'stripe.net / src / Stripe / Infrastructure / StripeConfiguration.cs'. The file is 32 lines (25 sloc) and 0.721 kB. The code is in C# and defines the StripeConfiguration class. The 'SupportedApiVersion' property is set to '2015-02-18', which is enclosed in an orange rectangular box.

4 namespace Stripe
5 {
6     public static class StripeConfiguration
7     {
8         private static string _apiKey;
9         internal const string SupportedApiVersion = "2015-02-18";
```

Stripe .net Version

Stripe-Version Header

```
curl https://api.stripe.com/v1/charges \  
  -u sk_test_BQokikJOvBiI2HlWgH4oIfQ2: \  
  -H "Stripe-Version: 2015-09-03"
```

Stripe.net Version Error

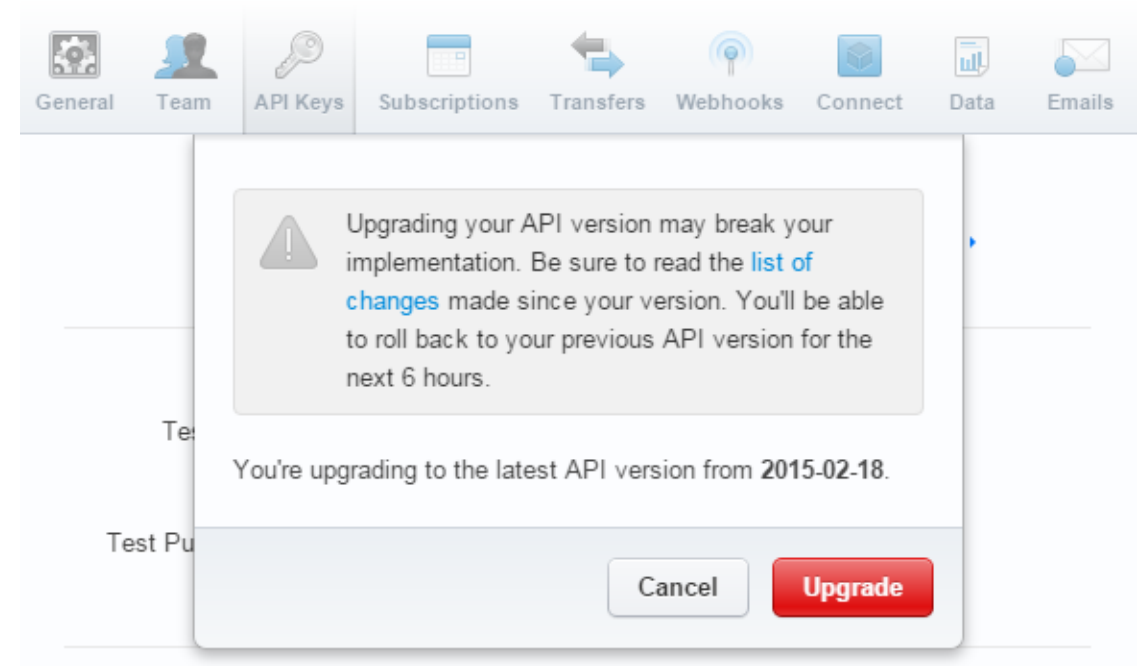

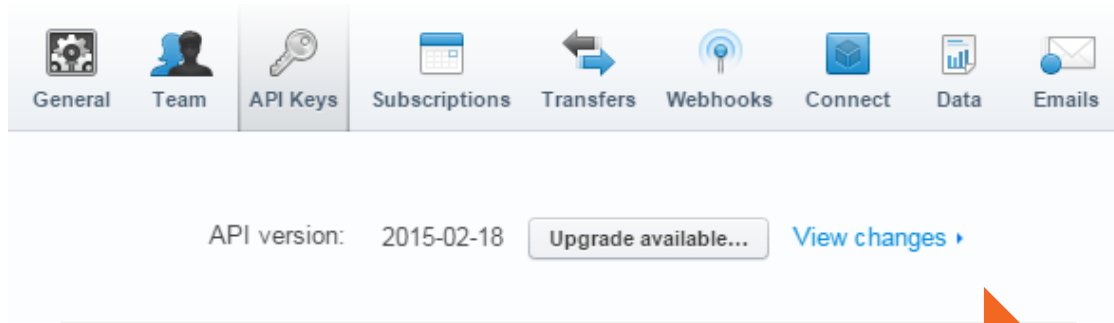

- Cannot deserialize the current JSON array (e.g. [1,2,3]) into type 'Stripe.StripeList`1[Stripe.StripeRefund]' because the type requires a JSON object (e.g. {"name":"value"}) to deserialize correctly.

Worth It?

Upgrading Stripe API Version

This Module Covered

Stripe API

- Authentication

- Creating a charge

Stripe.net

- Authentication

- Creating a charge

- Stripe API and Stripe.net versions

- Error Handling
